

Stephen Michael LaConte, Ph.D.

Associate Professor
Virginia Tech Carilion Research Institute and
Biomedical Engineering and Mechanics
2 Riverside Circle, Roanoke, VA 24016
(540) 526-2008 (office) • (540) 985-3373 (fax) • e-mail: slaconte@vt.edu

EDUCATION

- 9/96 - 9/02 University of Minnesota Minneapolis, MN
- Biomedical Engineering, Ph.D. (Electrical Engineering minor)
 - Co-Advisors: Xiaoping Hu and Stephen Strother
 - Thesis: Optimal basis representations for functional magnetic resonance imaging data
- 9/92 - 6/96 University of Denver Denver, CO
- Bachelor of Science in Electrical Engineering (BSEE)
 - 33 elective quarter hours of chemistry and biology

PROFESSIONAL EXPERIENCE

ACADEMIC

- | | | |
|----------------|--|---|
| 1/11 - present | Virginia Tech Carilion Research Institute
Virginia Tech
Roanoke, VA | Associate Professor
(Primary Appointment) |
| 1/11 - present | Department of Biomedical Engineering and Mechanics
School of Biomedical Engineering and Sciences
Virginia Tech
Blacksburg, VA | Associate Professor
(Primary Tenure-Track Appointment) |
| 6/15 - present | Faculty of Health Sciences
Virginia Tech
Roanoke, VA | Associate Professor |
| 6/15 - present | Department of Radiology
Virginia Tech Carilion School of Medicine
Roanoke, VA | Associate Professor |
| 6/15 - present | Department of Emergency Medicine
Virginia Tech Carilion School of Medicine
Roanoke, VA | Associate Professor |
| 1/14 - 6/15 | Faculty of Health Sciences
Virginia Tech
Roanoke, VA | Assistant Professor |
| 8/12 - 6/15 | Department of Radiology
Virginia Tech Carilion School of Medicine
Roanoke, VA | Assistant Professor |

12/11 - 6/15	Department of Emergency Medicine Virginia Tech Carilion School of Medicine Roanoke, VA	Assistant Professor
5/11 - 6/15	Research Service Line Salem VA Medical Center Salem, VA	Research Health Scientist
1/11 - 6/15	School of Biomedical Engineering and Sciences Virginia Tech Blacksburg, VA	Assistant Professor
1/11 - 6/15	Virginia Tech Carilion Research Institute Virginia Tech Roanoke, VA	Assistant Professor
8/10 - 5/11	Research Service Line Michael E. DeBakey VA Medical Center Houston, TX	Research Health Scientist
10/09 - 12/10 (Adjunct: 1/11 - 6/14)	Structural and Computational Biology and Molecular Biophysics Graduate Program Baylor College of Medicine Houston, TX	Assistant Professor
6/09 - 6/10	Scientific and Statistical Computing Core National Institute of Mental Health Bethesda, MD	Special Volunteer
7/07 - 12/10	Department of Bioengineering Rice University Houston, TX	Adjunct Assistant Professor
7/07 - 12/10 (Adjunct: 1/11 - 6/14)	Department of Neuroscience Baylor College of Medicine Houston, TX	Assistant Professor
10/04 - 6/07	Department of Biomedical Engineering Georgia Institute of Technology / Emory University Atlanta, GA	Assistant Professor Research Track
4/02 - 10/04	Department of Biomedical Engineering Georgia Institute of Technology / Emory University Atlanta, GA	Research Associate

NON-ACADEMIC

3/98 - 4/99	Guidant Corporation Cardiac Pacemakers, Inc. St. Paul, MN	Engineering Internship/ Contractor
9/95 - 8/96	National Renewable Energy Laboratory Golden, CO	American Western Universities Undergraduate Research Fellow

AWARDS

PROFESSIONAL AWARDS

2014 Virginia Tech College of Engineering 2014 Dean's Award for Outstanding New Assistant Professor.

2013 ScienceDirect Top25. Our GPU article ranked 1st for *Medical Image Analysis*, July to September.

2012 Scholar of the Week, Virginia Tech.

2011 Kavli Fellow (National Academy of Sciences, Chinese-American Frontiers of Science).

2011 NeuroImage Editors' Choice for "Decoding fMRI brain states in real-time." *NeuroImage*, 56:440-54, 2011.

2006 "Best Prediction of All Categories." Pittsburgh Brain Activity Interpretation Competition. In the PBAIC06, human volunteers watched movie clips during fMRI scans. The volunteers were instructed to rate movie clips on a spectrum of 28 characteristics (settings, characters, amusement level, faces, etc.). The competition's goal was to build predictive models capturing the relationships between the imaging data and the stimulus descriptor set. Awards were presented at the Organization for Human Brain Mapping Conference on June 15, 2006 in Florence, Italy.

POSTDOCTORAL AWARDS

2004 Travel Grant Award ISMRM 2004 conference

2003 Travel Grant Award ISMRM 2003 conference

GRADUATE AWARDS

2000 University of Minnesota's EMBS symposium poster competition

2000 Travel Grant Award ISMRM 2000 conference

UNDERGRADUATE AWARDS

1996 IEEE Student Paper Competition (First Place in Region 5 Competition - see Publications)

1996 NASA Scholar (Only invited undergraduate symposium presentation)

1996 University of Denver Pioneer Award (1 of 10 seniors recognized by yearbook for demonstrating campus leadership and involvement)

AFFILIATIONS

- BMES (Biomedical Engineering Society)
- EMBS (Engineering in Medicine and Biology Society) through IEEE
- IEEE (Institute of Electrical and Electronics Engineers)
- ISMRM (International Society for Magnetic Resonance Research)
- OHBM (Organization for Human Brain Mapping)
- SfN (Society for Neuroscience)

LICENSES

- Engineer-Intern in state of Colorado. Passed Fundamentals of Engineering exam (April 1996).

PATENTS

Title: Magnetic resonance eye tracking systems and methods

Inventors: LaConte, SM, Peltier, S, Heberlein K, Hu X

Owner: Emory University

Status: Provisional patent filed April 21, 2006

PCT filed April 23, 2007

SOFTWARE

3dsvm: C-language program for support vector machine (SVM) analysis of functional magnetic resonance imaging (fMRI) data as described in (LaConte et al., 2005). 3dsvm is a wrapper for SVM- Light. It exists as a command line program and plugin for AFNI, which is a suite of neuroimaging software tools that is maintained and developed by the Scientific and Statistical Computing Core at the National Institute of Mental Health. <http://www.lacontelab.org/3dsvm.html>.

Real-Time fMRI: Using a real-time fMRI interface to 3dsvm, our rtfMRI system is integrated with the Siemens MRI software platform. Software and hardware development on Siemens equipment is enabled legally through a master research agreement (MRA). There are three ways that a researcher's developments can be disseminated - other groups can implement it independently, Siemens can implement it, or the PI can distribute it through a "C2P" legal licensing agreement. The C2P (for Core Competency Partner) provides protections that are important to Siemens and are generally beneficial to all parties, including a license for binaries only, restrictions to research (no clinical use), no commercial use, protection of Siemens and University, an "as is" clause, etc. The C2P is well supported and will be our primary strategy for sharing with other Siemens sites. For other sites (e.g. GE and Philips) we provide well-documented software examples to assist sites in writing an interface function on their scanner. The translation function will also be flexible in its communication with the main TABS functionality. To date, we have shared our Siemens code with two academic sites, and we have helped to port our technology to both a GE site and a Philips site.

INVITED TALKS

- "Decoding the brain's surface to track whole-brain and interior brain activity," Virginia-Nordic Precision Neuroscience 2016, Roanoke, VA, October 6, 2016.
- "Machine learning with fMRI data," NIH (Emotion and Development Branch, NIMH), Bethesda, MD, August 6, 2015.
- "Sampling rare events in the state space dynamics of resting state networks," Fourth Biennial Conference on Resting State Brain Connectivity, Boston/Cambridge, MA, USA. September 11, 2014.
- "Predicting intrinsic brain activity," The 2nd Whistler scientific workshop on brain functional organization, connectivity and behavior, Whistler-Blackcomb, British Columbia, Canada. March 11, 2014.
- "Supervised learning for the analysis of functional magnetic resonance imaging data," Department of Statistics Colloquium Speaker Series, Virginia Tech, Blacksburg, VA. November 7, 2013.
- "Brain computer interfaces increase whole-brain signal-to-noise," Janelia Farms Seminar (Hosted by Karel Svoboda), HHMI's Janelia Farm Research Campus, Ashburn, VA. November 4, 2013.
- "Keynote Talk: Supervised learning for the analysis of functional magnetic resonance imaging," Inaugural Translational Biology Medicine and Health (TBMH) Visiting Student Reception, Inn at Virginia Tech, Blacksburg, VA. November 1, 2013.

- “Sampling rare events in the state space dynamics of resting state networks,” Virginia Tech Carilion Research Institute European-U.S. Workshop on Neuroscience of Cognition, Computation and Decisions. Riva San Vitale, Switzerland. October 18, 2013.
- “Sampling rare events in the state space dynamics of resting state networks,” Workshop on Engineering Systems for Mental Health (Organized by Srinivas Tadigadapa and Steven Schiff), Pennsylvania State University, University Park, PA. October 14, 2013.
- “Technological perspective: Pattern-based rtfMRI,” Radcliffe Symposium on Optimizing Real Time fMRI for Neurotherapeutic Discovery and Development (Organized by Luke Stoeckel and Eden Evins), Radcliffe Institute for Advanced Study, Harvard University, Cambridge, MA. July 11, 2013.
- “Directly testing the roles of resting-state networks with real-time fMRI,” OHBM Morning Workshop: Understanding the basis of resting-state fMRI connectivity dynamics (Organized by Daniel A. Handwerker and Catie Chang), Seattle, WA. June 17, 2013.
- “Using fMRI to track the time course of recovery from mild TBI,” Advanced Technologies and New Frontiers in Brain Injuries and Biomechanics, Arlington, VA. April 3, 2013.
- “Reading your mind: How to decode the brain mid-thought,” Roanoke-Blacksburg Technology Council, Tech and Toast, Blacksburg, VA. March 21, 2013.
- “Brain computer interfaces increase whole-brain signal-to-noise,” City College of New York, Department of Psychology, Neuroscience Colloquium, New York, NY. March 12, 2013.
- “Brain computer interfaces increase whole-brain signal-to-noise,” Martinos Center BrainMap Seminar, Athinoula A. Martinos Center, MGH, Boston, MA. January 9, 2013.
- “Brain computer interfaces increase whole-brain signal-to-noise,” VTCRI seminar series, Roanoke, VA. October 5, 2012.
- “Directly testing the roles of resting-state networks with real-time fMRI,” Third Biennial Conference on Resting State Brain Connectivity, Magdeburg, Germany. September 6, 2012.
- “Interfacing with the brain through real-time fMRI,” Imaging at Illinois: The Next Generation, Beckman Institute for Advanced Science and Technology, University of Illinois at Urbana-Champaign, June 1, 2012.
- “Keynote Lecture: Neurofeedback increases whole-brain signal-to-noise,” 1st Swiss Real Time fMRI Neurofeedback Conference, Eidgenössische Technische Hochschule (ETH), Zürich, Switzerland, February 17, 2012.
- “Interfacing with the brain through real-time fMRI,” Fourteenth Annual Chinese-American Kavli Frontiers of Science Symposium, Shenzhen, China, November 7, 2011.
- “Keynote Lecture: Enhancing supervised learning-based realtime fMRI,” IEEE International Workshop on Pattern Recognition in NeuroImaging, Seoul, Korea, May 17, 2011.
- “Temporally adaptive brain state fMRI,” Neuroimaging Technologies for Optimizing Performance, Alexandria, VA. September 24, 2010.
- “Real-time tracking of resting-state networks,” Second Biennial International Conference on Resting-State Connectivity, Milwaukee, WI. September 16, 2010.
- “Using machine learning of fMRI-based brain states to provide real-time neurofeedback,” CNS*2010 Workshop on Methods of Information Theory in Computational Neuroscience, San Antonio, TX. July 30, 2010.
- Invited participant in “Engineering Brain Functions Session,” US - Europe Workshop, Reverse Engineering of the Human Brain, Dubrovnik, Croatia, May 23-26, 2010.
- “Using machine learning of fMRI-based brain states to provide real-time neurofeedback,” ISMRM Brain Function Study Group, Stockholm, Sweden, May 4, 2010.

- “Using machine learning of fMRI-based brain states to provide real-time neurofeedback,” Virginia Tech, Blacksburg, VA. April 22, 2010.
- “Real-time fMRI and feedback stimuli,” Winter Conference on Brain Research, Panel Session: Making Sense of Multisensory Integration, with Paul Laurienti and Michael Beauchamp (Organizer, Panel Chair), Breckenridge, CO, January 25, 2010.
- “Supervised learning of fMRI-based brain states and real-time fMRI,” MIND Institute, Albuquerque, NM, September 28, 2009.
- “Neurofeedback of two motor functions using supervised learning-based real-time functional magnetic resonance imaging,” Annual International Conference of the IEEE EMBS, Minneapolis, MN. September 6, 2009.
- “Using distributed fMRI patterns to track learning and provide real-time feedback,” Rotman Rounds, Baycrest’s Rotman Research Institute, Toronto, Ontario, Canada, February 23, 2009.
- “Detecting nonlinear dynamics of functional connectivity,” Resting-state workshop. Otto von Guericke University, Magdeburg, Germany. December 5, 2008.
- “Distributed and localized approaches to real-time fMRI,” Department of Psychology Cognitive Tea Seminar, Rice University, Houston, TX. September 3, 2008.
- “Using machine learning to enhance the capabilities of functional magnetic resonance imaging,” Institute for Human and Machine Cognition (IHMC). Pensacola, FL. June 6, 2008.
- “Brain reading and rehabilitation with fMRI,” National VA Research Week Symposium, Michael E. DeBakey VA Medical Center, Houston, TX. May 14, 2008.
- “New frontiers in neuroimaging,” Eighteenth Annual Rush and Helen Record Neuroscience Forum, Galveston TX. February 17, 2008.
- “Using machine learning to enhance the capabilities of functional magnetic resonance imaging,” Fifth Annual Houston Conference on Theoretical and Computational Neuroscience, Rice University, Houston, TX. January 12, 2008.
- “Using machine learning to enhance the capabilities of functional magnetic resonance imaging,” Functional MRI 2007 Speaker Series, University of Michigan, Ann Arbor, MI. October 27, 2007.
- “Real-time feedback and other enhancements to fMRI using multi-voxel pattern analysis,” Bernstein Center for Computational Neuroscience, Humboldt University, Berlin Germany May 18, 2007.
- “Real-time feedback and other enhancements to fMRI using multi-voxel pattern analysis,” Neuroimaging Analysis Methods Group, Center for the Study of Brain, Mind, and Behavior (CSBMB). Princeton University, Princeton, NJ. May 11, 2007.
- “Enhancing functional magnetic resonance imaging with temporally predictive multivariate models,” Rice University, Department of Bioengineering, Houston TX. April 30, 2007.
- “Enhancing functional magnetic resonance imaging with temporally predictive multivariate models,” Yerkes Imaging Center. Yerkes National Primate Center of Emory University, Atlanta GA. March 7, 2007.
- “Enhancing functional magnetic resonance imaging with supervised learning,” NIPS 2006 Workshops: New directions on decoding mental states from fMRI data. Organized by John-Dylan Haynes, Francisco Pereira, Tom Mitchell. Whistler, Canada, December 8, 2006.
- “Real-time classification of brain states for adaptive fMRI experiments,” Baylor College of Medicine (Human Neuroimaging Laboratory), Houston, TX, September 22, 2006.
- “Real-time classification of brain states for adaptive fMRI experiments,” University of Pittsburgh Medical Center (Department of Radiology, MR Research Center), Pittsburgh, PA, September 18, 2006.

- “Real-time fMRI using multivariate brain state estimation,” NIH (Functional MRI Facility, DIRP, NIMH), Bethesda, MD, July 21, 2006.
- “Imaging brain states in real-time for adaptive fMRI experiments,” Intel Opportunity Scholar’s Program and Partners in Transitioning to Tech (PITT), Georgia Institute of Technology, Atlanta GA. February 28, 2006.
- “Temporal classification of fMRI data,” MIND Institute, Albuquerque, NM. July 12, 2004.

| 2005 | IEEE Teacher's in-service training session for promoting science and engineering for K-12 education. Sponsored by the IEEE Educational Activities Region 3, Atlanta, GA. July 23. |

VIRGINIA TECH

- 2016 - present Molecular Visualization VTCRI SURF (James Smyth, Chair) selection committee and participating mentor.
- 2016 - present VTCRI NeuroSURF (Michael Fox, Chair) selection committee and participating mentor.
- 2016 Co-chair: Biomaterials: Body-Device Interfaces Building Planning Group
- 2016 Member : August 2016 Brain Health and Disease Building Planning Group
- 2016 Faculty steering committee on the "Information and Decision Sciences" destination area.
- 2015 - 2016 Virginia Nordic Precision Neuroscience 2016 International Organizing Committee (vnpn.org)
- 2015 - 2016 Chair VTCRI Frontiers in Biomedical Science seminar series selection committee for 2016-17.
- 2015 - 2016 Neuroscience Initiative Faculty Search Committee.
- 2015 ICTAS Seed Proposals JFC BioMed/Health Peer Review Panel
- 2015 - present VTCSOM M4 Written and Oral Presentation Evaluations.
- 2014 - present BME Undergraduate Curriculum Committee
- 2014 Virginia Science Festival, October 11, VTCRI, rtfMRI Brain-Controlled Robotic Vehicle (with Alex Leonessa and Rosalyn Moran). <http://research.vtc.vt.edu/sciencefestival2014/>.
- 2014 Presidential Installation of Timothy Sands, 16th President of Virginia Tech. October 18, Pannel discussion: Harnessing Brain Power.
- 2014 SBES Biomechanics Faculty Search Committee.
- 2013 - present VTCSOM M1 Written and Oral Presentation Evaluations.
- 2013 - present VTCSOM M2 Oral Presentation Evaluations.
- 2013 - present VTCRI Seminar Program Committee 2013-2014, 2014-2015.
- 2013 Pilot research grant reviewer: Collaborative inter-institutional projects fostering collaboration between Virginia Tech, Children's National Medical Center, and George Washington University.
- 2011 Virginia Tech Carilion Research Institute, Faculty Search Committee (member).
- 2011 - present SBES Qualifying Exam Faculty Examiner.
- 2011 - present SBES and TBMH Graduate Recruiting Weekend (MRI demonstrations and VTCRI tour - coordinated with Gary Mason)
- 2011 Virginia Tech Carilion Research Institute, Institute Integration Committee (member).
- 2011 Virginia Tech Carilion Research Institute, Computing Resources Committee (member).

BAYLOR COLLEGE of MEDICINE

- 2010 Baylor College of Medicine, IT Governance Advisory Committee (research subcommittee member).
- 2009 Baylor College of Medicine, Department of Neuroscience, Departmental ad hoc committee to develop seminar series policies.
- 2007 - 2010 Baylor College of Medicine, Department of Neuroscience, Graduate Student Admissions Committee (member).
- 2007 - 2008 Baylor College of Medicine, Department of Neuroscience, Cognitive Neuroscience Faculty Search Committee.
- 2007 - 2008 Baylor College of Medicine, Department of Neuroscience, Departmental ad hoc committee to help define competencies in quantitative skills.

EMORY UNIVERSITY

- 2005 North American IDEA User's Meeting, Co-sponsored by Emory University and Siemens Medical Solutions, November 4-6, Atlanta, GA. Planning Committee.
- 2002 - 2003 Passages Structured mentoring program for faculty at Emory University. Mentored by Jim Snyder Department of Chemistry.

TEACHING

COURSES

- “Introduction to Biomedical Imaging,” Virginia Tech, Course Number: BMES-3134 (In Fall 2015: Special Study BMES-4984), (Course Coordinator Guohua Cao), approximately 25% of course, 7 Lectures on MRI, (Last: Fall Semester 2016).
- “Medical Imaging II,” Virginia Tech / Wake Forest, Course Number: BMES-6514 / BMES-751, Spring Semester 2016 (approximately 25% of course, 7 Lectures on MRI).
- “College of Engineering Undergraduate Research / Independent Study,” Virginia Tech, Course Number: BMES-4994, (Last: Spring Semester 2016).
- “Special Study: Introduction to Functional Magnetic Resonance Imaging” Virginia Tech, Course Number: BMES-5984, Fall Semester 2014, 2015.
- “Neuroimaging,” Baylor College of Medicine, Course Number: 350-444 Brain Imaging from Cell to System (Course Coordinator Peter Saggau), March 17-May 7, 2009 (entire second term - approximately 24 lecture hours).
- “Data representation, spectral methods, and classification techniques,” Baylor College of Medicine, Course Number: 350-425, Introduction to statistical computing and modeling (Course Coordinator: Read Montague), March 3-14, 2008 (approximately 6 lecture hours).

COURSE LECTURES

- 4× “Research Live! (Introductory lecture to research and available projects in my lab),” Virginia Tech Carilion School of Medicine, M1 Research Domain, (Last: January 6, 2017).
- “fMRI: lecture, journal discussion, and lab visit (4 hours),” Virginia Tech, NEUR 4054, Neuroscience Research and Practical Experience (Instructor: Robyn Umans), October 24, 26, and 28, 2016.
- 2× “Introduction to MRI” Virginia Tech, CHEM 4524/5524, Molecular Structure Determination (Instructor: Harry Dorn), (Last: September 15, 2016).
- “Functional Magnetic Resonance Imaging (fMRI),” Virginia Tech, BMES 2104, Introduction to Biomedical Engineering (Instructor: Scott Verbridge), March 29, 2016.
- 4× “Introduction to MRI,” Virginia Tech, BMES 2894, then BMES 2104, Introduction to Biomedical Engineering (Instructor: Pam VandeVord, then Scott Verbridge), (Last: March 24, 2016).
- “Attentional Brain Networks,” Virginia Tech, TBMH 5014, Fundamentals of Neuroscience (Cognitive Neuroscience Instructor: Brooks King-Casas), (Last: March 22, 2016).
- “Introduction to MRI,” Virginia Tech, TBMH 5144, Quantitative Imaging and Time Series Analysis for Biological Systems (Instructors: Steven Poelzing and Rosalyn Moran), February 22, 2016.
- 2× “Methods in Logic,” Virginia Tech Carilion School of Medicine and TBMH, (Last: October 14, 2015)
- “Introduction to real-time fMRI and its potential for addiction treatment” Virginia Tech, BMES 2894, Introduction to Biomedical Engineering (Instructor: Scott Verbridge), March 26, 2015.
- “Introduction to real-time fMRI and its potential for addiction treatment” Virginia Tech, TBMH 5004, Translational Biology, Medicine, & Health (Instructor: Michael Friedlander), October 8, 2014.
- “fMRI pattern analysis and real-time fMRI” Virginia Tech, BMES 2894, Introduction to Biomedical Engineering (Instructor: Scott Verbridge), April 1, 2014.
- “Bioimaging” Virginia Tech, BMES 2894, Introduction to Biomedical Engineering (Instructor: Pam VandeVord), May 2, 2013.

- “Biomedical Imaging: MRI Basics” Virginia Tech, BMES 2894, Introduction to Biomedical Engineering (Instructor: Pam VandeVord), April 3, 2012.
- “Faculty panel discussion on manuscript publication,” Virginia Tech Carilion School of Medicine, M1 Research Domain, March 19, 2012.
- “MRI Basics: NMR to MRI,” Virginia Tech, GRAD 5134, Polymers in Medicine and Biology (Instructors: Judy Riffle and Abby Whittington), November 17 and 29, 2011 (2 lectures).
- “Advanced neuroimaging methods for functional characterization and rehabilitation,” CarilionClinic, Department of Emergency Medicine, Residency Program, September 29, 2011.
- “Supervised learning of fMRI-based cognitive states (and real-time fMRI),” University of Texas Graduate School of Biomedical Sciences, GS140053 (also listed as Rice University Bioengineering and Psychology 471/671), Introduction to fMRI (Instructor: Michael S. Beauchamp), November 30, 2010.
- “Neuroimaging crash course,” Rice University, PSYC 362, Biopsychology (Instructor: Timothy Ellmore), February 18, 2010.
- “Measurement of higher brain function in humans,” Baylor College of Medicine, Course 350-434, Higher Brain Function (Course Director: Mariella De Biasi), February 16, 2010.
- “Introduction to MR physics,” University of Texas Graduate School of Biomedical Sciences, GS140053 (also listed as Rice University Bioengineering and Psychology 471/671), Introduction to fMRI (Instructor: Michael S. Beauchamp), September 23, 2008.
- “Sampling and aliasing in image reconstruction,” Georgia Institute of Technology, BMED 8813, Special Topics on Magnetic Resonance Imaging (Instructor: Xiaoping Hu), September 28, 2004.
- “Continuous and discrete Fourier transforms,” Georgia Institute of Technology, BMED 8813, Special Topics on Magnetic Resonance Imaging (Instructor: Xiaoping Hu), September 23, 2004.
- “Imaging of Alzheimer’s disease with MRI,” Emory University, Chem 470 Chemistry, Biology, and Molecular Modeling (Instructor: Jim Snyder), February 26, 2003.

WORKSHOPS, TRAINING COURSES, AND INTERNATIONAL CONFERENCE EDUCATION

- “Pattern Recognition and real-time fMRI,” University of Michigan training course in functional magnetic resonance imaging (fMRI). Ann Arbor, Michigan. August 16, 2015 (Evening Real-Time fMRI Demo at Michigan Scanner given on Aug 17; Data Analysis Lab and Demo given on Aug 18).
- “Multivoxel Pattern-Based real-time fMRI,” Organization for Human Brain Mapping, Real-Time fMRI: Fundamental Principles for Clinical Applications, Educational Course, Geneva, Switzerland. June 26, 2016.
- “Pattern Recognition and real-time fMRI,” University of Michigan training course in functional magnetic resonance imaging (fMRI). Ann Arbor, Michigan. August 11, 2015 (Evening Real-Time fMRI Demo at Michigan Scanner given on Aug 12; Data Analysis Lab and Demo given on Aug 13).
- “Pattern Recognition and real-time fMRI,” University of Michigan training course in functional magnetic resonance imaging (fMRI). Ann Arbor, Michigan. August 12, 2014 (Evening Real-Time fMRI Demo at Michigan Scanner given on Aug 13; Data Analysis Lab and Demo given on Aug 14).
- “Pattern Recognition and real-time fMRI,” University of Michigan training course in functional magnetic resonance imaging (fMRI). Ann Arbor, Michigan. August 15, 2012 (Lab and Demo given on Aug 16).
- “Multivoxel Pattern-Based rtfMRI,” Organization for Human Brain Mapping, Brain-Computer Interfaces and Real-Time fMRI, Educational Course, Beijing, China. June 10, 2012.

- “fMRI analysis,” International Society for Magnetic Resonance in Medicine, Sunrise Educational Course: Absolute Beginner’s Guide to Neuroimaging Methods, Melbourne, Australia. May 10, 2012.

HIGH SCHOOL STUDENTS

- Mark Tenzer, Patrick Henry High and Roanoke Valley Governor's School, 2014-present
- Sam McGhee, Patrick Henry High and Roanoke Valley Governor's School, 2013-2014
- Araba Wubah, Blacksburg High School, 2011

UNDERGRADUATE STUDENTS

- Alexandra Cummings, Virginia Tech, 2017-present
- Mark Tenzer, University of Virginia, 2016-present
- Sam McGhee, Virginia Tech, 2014-2016
- Amnah Eltahir, Virginia Tech, 2013-2014
- Jonathan Ng, Rice/TMC/UH Computational Neuroscience REU, 2009
- Andrew Fischer, Rice University, 2008-2010
- Prashant Prasad, Rice University, 2007-2009

MEDICAL STUDENTS

- Jeffrey Henry, Virginia Tech Carilion School of Medicine, 2017-present
- Benjamin Stephens (Sharon Ramey, primary), Virginia Tech Carilion School of Medicine, 2014-present
- Juniper J. Lee Park (Stephanie DeLuca, primary), Virginia Tech Carilion School of Medicine, 2014-present
- Alisha Tuteja, Virginia Tech Carilion School of Medicine, 2013-2016
- Amber Post, Virginia Tech Carilion School of Medicine, 2012-2015
- Manek Aulakh, Virginia Tech Carilion School of Medicine, 2011-2014
Project: "Acute sleep deprivation shows reversible effects on the multi-source interference task."
- Sean R. Fletcher, Virginia Tech Carilion School of Medicine, 2011-2014
Project: "Improved performance on the multi-source interference task, even during moderate alcohol intoxication."

ROTATION STUDENTS

- Shaylen Greenberg, Virginia Tech, TBMH rotation, January 2016
- Alyssa Brunal, Virginia Tech, 2 TBMH rotations, Summer 2016 and March 2017

GRADUATE STUDENTS

- Jeff Soldate, Virginia Tech, School of Biomedical Engineering and Sciences, 2017-present
- Amnah Eltahir, Virginia Tech, School of Biomedical Engineering and Sciences, 2014-present
- Harshawardhan Deshpande, Virginia Tech, School of Biomedical Engineering and Sciences, 2012-present
- Katherine McRoberts, Virginia Tech, School of Biomedical Engineering and Sciences, 2011-2013.
Thesis: "Magnetic Resonance Imaging Movies for Multivariate Analysis of Speech"
MS Biomedical Engineering

- Cyrus Eierud, Baylor College of Medicine, Structural and Computational Biology and Molecular Biophysics (SCBMB), 2009-2014.
Thesis: “Developing Neuroimaging Methods to Disentangle Mild Traumatic Brain Injury”
PhD SCBMB

POSTDOCTORAL

- Charles Mueller, 2013-2014
- Anders Eklund, 2012-2014
- Richard Cameron Craddock, 2009-2012
- Theodora Dorina Papageorgiou, 2007-2009
- Jihong Chen, 2005

THESIS COMMITTEES

- Mohsen Bahrami (advised by Paul Laurienti and Sean Simpson), Virginia Tech / Wake Forest, School of Biomedical Engineering and Sciences (SBES).
- Paul Hill (advised by Rachel Diana), Virginia Tech, Psychology.
- Jade Montgomery (advised by Robert Gourdie), Virginia Tech, Biomedical Engineering and Mechanics (BEAM).
- Stephanie Roldan (advised by Anthony Cate), Virginia Tech, Psychology.
- Katherine McCurry (advised by Pearl Chiu and Brooks King-Casas), Virginia Tech, Psychology.
- Holly Sullivan Toole (advised by John Richey), Virginia Tech, Translational Biology Medicine and Health (TBMH).
- Joseph Sutlive (advised by Rolf Mueller), Virginia Tech, Translational Biology Medicine and Health (TBMH).
- Hao Gong (advised by Guohua Cao), Virginia Tech, Biomedical Engineering and Mechanics (BEAM), PhD 2017.
- Olga Pen (advised by Guohua Cao), Virginia Tech, Biomedical Engineering and Mechanics (BEAM), MS 2016.
- Hunger Long (advised by Rosalyn Moran), Virginia Tech, Electrical and Computer Engineering (ECE), MS 2016.
- Marika Coffman (advised by John Richey), Virginia Tech, Psychology.
- Shaza Zaghlood (advised by Chris Wyatt), Virginia Tech, Electrical and Computer Engineering (ECE), PhD 2014.
- William Charles Vogt (advised by Christopher Rylander), Virginia Tech, School of Biomedical Engineering and Sciences (SBES), PhD 2013.
- Sujith V. Sajja (advised by Pamela VandeVord), Virginia Tech, School of Biomedical Engineering and Sciences (SBES), PhD 2013.
- Ting Xiang (advised by Read Montague), Baylor College of Medicine, Neuroscience, PhD 2013.
- Josepheen De Asis Cruz (advised by Read Montague), Baylor College of Medicine, Neuroscience, PhD 2013.
- Anders Eklund (PhD Thesis Opponent, April 27, 2012; advised by Hans Knutsson), Linköpings Universitet, Medical Informatics, Department of Biomedical Engineering Linköping Sweden, PhD 2012.

- Carlos Perez Torres (advised by Robia Pautler), Baylor College of Medicine, Translational Biology and Molecular Medicine (TBMM), PhD 2012.
- Temilade Adedire (advised by Eric Schumacher), Georgia Institute of Technology/Emory University, Master's thesis 2007.
- Christian Cabrera (advised by Krish Sathian), Emory University undergraduate. Undergraduate honors thesis 2006.

RESEARCH GRANTS

ACTIVE

Neural Correlates of Impulsive Choices of Risky Sex in Simulant Dependence (Micky Koffarnus, PI)

Role on Project: Co-Investigator

Funding Agency: NIDA/NIH (1R21DA040559)

Project Period: 9/2015 - 8/2017

Subcontract: Brain Mechanisms Supporting Individual Differences in Pain Sensitivity (Robert Coghill, PI)

Role on Project: Co-Investigator (Subcontract PI)

Funding Agency: NIH/NIMH (R01MH101555)

Subcontract Total Cost: \$108,630

Project Period: 7/2015 - 4/2020

Multisite RCT of 3 Neurorehabilitation Therapies for Infants with Asymmetrical CP (Sharon Ramey and Stephanie DeLuca, PIs)

Role on Project: Co-Investigator

Funding Agency: NIH (1R01HD074574)

Eunice Kennedy Shriver National Institute of Child Health & Human Development

Project Period: 3/2014 - 9/2017

Development and Testing of a Novel Neurotechnology to Promote Emotion Recognition in Autism (Susan White, PI)

Role on Project: Co-Investigator

Funding Agency: NIH/NIMH (1R21MH100268)

Project Period: 3/2014 - 2/2016

The repair of self control in alcohol dependence: Working memory and real-time fMRI

Role on Project: Co-Principal Investigator with Warren Bickel

Funding Agency: NIH/NIAAA (R01 AA02152901A1)

Estimated Total Cost: \$2,820,884

Project Period: 9/2013 - 5/2018

Subcontract: Real-time fMRI Neurofeedback Based Stratification of Default Network Regulation (Cameron Craddock, PI)

Role on Project: Co-Investigator (Subcontract PI)

Funding Agency: NIH/NIMH (R01MH101555)

Subcontract Total Cost: \$61,283

Project Period: 7/2013 - 5/2017

Mentorship and Development Program for Biomedical Trainees (Audra Van Wart & Michael Friedlander, PIs)

Role on Project: Co-Investigator

Funding Agency: NIH (DP7OD018428)

Project Period: 9/2013 - 8/2018

Multisite RCT of 3 Neurorehabilitation Therapies of Infants with Asymmetrical CP (Sharon Ramey & Stephanie DeLuca, PIs)

Role on Project: Co-Investigator
Funding Agency: NIH (R01HD068345)
Estimated Total Cost: \$2,992,184
Project Period: 3/2014 - 2/2018

Development of a Novel Neurotechnology to Promote Emotion Recognition in Autism (Susan White, PI)
Role on Project: Co-Investigator
Funding Agency: NIH/NIMH (R21MH100268)
Estimated Total Cost: \$494,912
Project Period: 3/2014 - 2/2016

NCAA-DoD Concussion Advanced Research Core (Thomas McAllister, Steven Broglio, & Michael McCrea, PIs)
Role on Project: Subcontract PI (with Stefan Duma and Steven Rowson)
Funding Agency: DoD NCAA
Subcontract Total Cost: \$651,513
Project Period: Pending

AWARDED

Neuroimaging major depression and nicotine dependence on axes of valuation (Pearl Chiu, PI)
Role on Project: Co-Investigator
Funding Agency: NIMH (7R01MH087692)
Project Period: 9/2012 - 1/2015
National Institute of Mental Health

Neurofeedback for default mode network regulation in major depressive disorder (Cameron Craddock, PI)
Role on Project: Co-Mentor with Helen Mayberg
Funding Agency: NARSAD Young Investigator Award
Total Cost: \$60,000
Project Period: 7/2011 - 6/2013

The biological and behavioral bases for decision-making in medical professionals (Read Montague, PI)
Role on Project: Co-Investigator
Funding Agency: NIA (RC4AG039067)
Project Period: 5/2011 - 8/2013
National Institute on Aging

Neuroimaging major depression and nicotine dependence on axes of valuation (Pearl Chiu, PI)
Role on Project: Co-Investigator
Funding Agency: NIMH (7R01MH091872)
Project Period: 4/2011 - 1/2015
National Institute of Mental Health

Localized and distributed real-time fMRI approaches to facilitate self control in substance abusers
Role on Project: Co-Principal Investigator with Pearl Chiu
Funding Agency: NIH/NIDA (R33DA026086)
Total Cost: \$1,722,696
Project Period: 9/2010 - 6/2013

Neurobehavioral metrics for the assessment and treatment of depression (Pearl Chiu, PI)
Role on Project: Co-Investigator
Funding Agency: NIH/NIMH (R01MH087692)
Estimated Total Cost: \$926,154
Project Period: 7/2010 - 3/2015

Neurobehavioral assessment of interpersonal functioning in PTSD (Brooks King-Casas, PI)

Role on project: Co-Investigator

Funding Agency: VA/RR&D (D7030R)

Project Period: 10/2009 - 9/2013

Veterans Affairs Office of Rehabilitation Research and Development

Enhancing 3dsvm to improve its interoperability and dissemination

Role on Project: Principal Investigator

Funding Agency: NIH/NIBIB (R03EB012464)

Total Cost: \$156,500

Project Period: 9/2010 - 9/2011

Mission Connect mild TBI translational research consortium.

Role on Project: consortium PI (Initiating PI: Alex Valadka)

Funding Agency: US Army Medical Research and Materiel Command (W81XWH-08-2-0144)

Total Cost: \$534,650

Project Period: 8/2008 - 7/2013

Localized and distributed real-time fMRI approaches to facilitate self control in substance abusers

Role on Project: Co-Principal Investigator with Pearl Chiu

Funding Agency: NIH/NIDA (R21DA026086)

Total Cost: \$399,270

Project Period: 9/2008 - 8/2010

Speech rehabilitation with fMRI-based biofeedback.

Role on Project: PI (with Read Montague)

Funding Agency: McNair Foundation

Total Cost: \$1,450,000

Project Period: 7/2007 - 6/2009

Assessing Development Effects of Prenatal Cocaine Exposure (Xiaoping Hu, PI)

Role on project: Investigator

Funding Agency: NIDA (R01DA17795)

Project Period: July 15, 2004 - April 30, 2009

National Institute on Drug Abuse

Improvement and Application of fMRI (Xiaoping Hu, PI)

Role on project: Investigator

Funding Agency: NINDS (R01EB002009)

Project Period: May 1, 2000 - Mar. 31, 2009

National Institute of Neurological Disorders and Stroke

Temporally Adaptive fMRI.

Role on Project: Principal Investigator

Funding Agency: NINDS (R21NS050183)

Total Cost: \$378,569

Project Period: Jan. 1, 2005 - Dec. 31, 2006

National Institute of Neurological Disorders and Stroke

Application of multivariate support vector pattern recognition classification methods to detect and predict neural correlates of emotion.

Role on Project: Co-Investigator (with Stephan Haman, PI and Carla Nolan, Co-PI)

Funding Agency: Emory College FMRI Seed Grant Application

Total Cost: \$22,000

Project Period: 9/2004 - 9/2005
